**Challenger Packaging** is a leading manufacturer of high-performance packaging solutions engineered to protect, secure, and optimize operational efficiency. From professional-grade strapping tools and durable strapping materials to high-quality films, reliable tapes, protective packaging, and corrugated solutions, we deliver products designed for strength, consistency, and performance.

**Challenger Packaging** maintains a strong commitment to innovation and quality that empowers businesses to package and ship with confidence.

# Corrugated Materials

## Stock Boxes

With over **1,600** stock sizes, we offer single, double, and triple wall boxes to provide the right level of protection for your product. Available in both kraft and white finishes.

### **Custom Sizing & Print Available -**

Contact your sales rep for more information!

## Corrugated Sheets

Available in over **50** standard sizes, our corrugate sheets are offered in single, double, and triple wall construction to match the strength requirements of your application.

### **Custom Sizing Available -**

Contact your sales rep for more information!

## Honeycomb Corrugation

We offer honeycomb corrugation in a wide range of sizes and thicknesses, designed to deliver enhanced cushioning and structural support. Ideal for products that require extra protection, honeycomb corrugation helps absorb impact, distribute weight evenly.

## Single Face Corrugation

Our single face corrugation is available in "A" and "B" flute profiles across a wide variety of widths to meet diverse packaging needs.

**A-flute** (1/4") provides dependable shock absorption and crush resistance.

**B-flute** (1/8") offers a lower profile with increased flexibility.

## Bulk Bins / Gaylords

Bulk bins are available in a variety of sizes, shapes, and board grades to support multiple applications. They help protect large shipment quantities, secure irregularly shaped items during transit, and can be used as scrap receptacles to keep warehouses clean and organized.

## Steel Strap

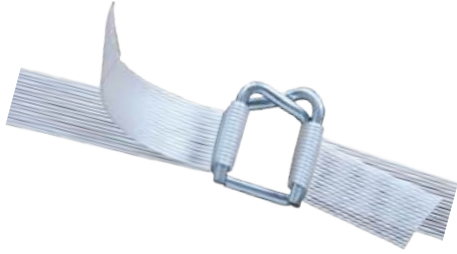

**Regular-Duty Steel Strapping** is low-carbon steel for reinforcement, bundling, palletizing, and box closure. Available in multiple finishes.

**High-Tensile Steel Strapping** provides strength and elongation for demanding loads like compressed bales and heavy coils, with more footage per coil.

# Strap Sealing

# Packaging Foam

Provides consistent, reliable cushioning that absorbs impact without collapsing under weight. Foam distributes pressure evenly across the surface of a product, making it especially effective at protecting edges, corners, and finished surfaces from damage during handling, stacking, and transit.

Foam Thickness	Available Widths	Length
1/32"	48" / 60" / 72"	2000'
1/16"	48" / 60" / 72"	1250'
3/32"	48" / 60" / 72"	750'
1/8"	48" / 60" / 72"	550'
3/16"	48" / 60" / 72"	350'
1/4"	48" / 60" / 72"	250'
1/2"	48" only	125'

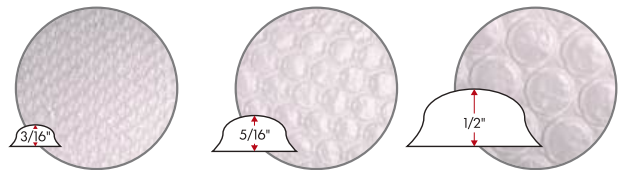

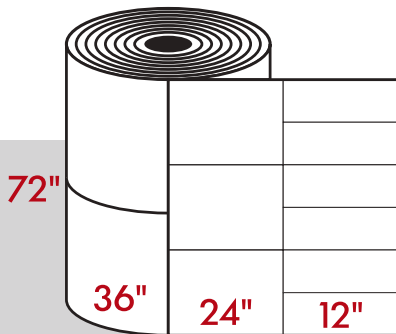

All master rolls can be slit and/or perforated to customer specifications, providing the right size for faster packing and reduced waste.

*Additional charges may apply for slitting and perforation.*

# Packing Bubbles

A lightweight, cost-effective way to protect products during handling and transit. Its air-filled bubbles absorb shock and vibration, helping reduce damage from minor impacts while keeping shipping weight and costs low. Bubble wrap is flexible and easy to use.

Bubble	Width	Length	Application
3/16"	48"	750'	Light Weight Products
5/16"	48"	375'	Medium Weight Products
1/2"	48"	250'	Heavy Weight Products

All master rolls can be slit and/or perforated to customer specifications, providing the right size for faster packing and reduced waste.

*Additional charges may apply for slitting and perforation.*
