

Quality • Consistency • Dependability

Steel Strapping

Steel strapping is available in two coil styles: oscillated wound and ribbon wound.

Regular-Duty Steel Strapping is made from low-carbon steel for general-use applications such as package reinforcement, unitizing, bundling, palletizing, and box closure. It is offered in multiple finishes.

High-Tensile Steel Strapping is engineered for high performance. Made from heat-treated, cold-rolled high-carbon steel for consistent strength and elongation, it's ideal for demanding uses such as unitizing compressed fiber bales, securing heavy coils, and open-top railcar or trailer loading. It also provides more footage per coil than comparable heavy-duty strapping.

SC-CART16
16" Core, Face Width 3" - 6"

Strapping Cart

Provide immediate access to your strapping.

Dispensers are designed for oscillated wound steel coils and plastic, polyester, and polypropylene strapping. They may be used to hold cores of varying sizes.

These dispensers include a tray that can be used to hold tools and seals.

Part #	Sort Name	Width	Gauge	Strength	Break Strength	Coil Style
43359	12020RD	1/2"	.020	Regular	1200 lbs	Oscillated
43358	58020RD	5/8"	.020	Regular	1500 lbs	Oscillated
43356	34020RD	3/4"	.020	Regular	1800 lbs	Oscillated
43362	34020HT	3/4"	.020	High Tensile	2250 lbs	Oscillated
43354	34023RD	3/4"	.023	Regular	2070 lbs	Oscillated
43364	34025HTOSC	3/4"	.025	High Tensile	2800 lbs	Oscillated
43361	34031HTOSC	3/4"	.031	High Tensile	3500 lbs	Oscillated
43357	114031HTRW	1-1/4"	.031	High Tensile	5500 lbs	Ribbon
43363	114X025RBWHT	1-1/4"	.025	High Tensile	4560 lbs	Ribbon
43365	12023RD	1/2"	.023	Regular	1380 lbs	Oscillated
43366	114029HT	1-1/4"	.029	High Tensile	5450 lbs	Ribbon
43369	34023RD-PU	3/4"	.020	Regular	2250 lbs	Punched
43370	114031HT-PU	1-1/4"	.031	High Tensile	5500 lbs	Punched
