# Strapping Cart

## Provide immediate access to your strapping.

Challenger® Strapping Carts are designed for oscillated wound steel coils and plastic, polyester, and polypropylene strapping.

These carts may be used to hold cores of varying sizes.

Strapping Carts also include a tray that can be used to hold tools and seals.

- **16-inch Core** supports wide variety of strapping
- **3" - 6" Face Width**
- **Storage tray** for quick and easy access to tools and accessories
- **Heavy-duty tires**
